

Synopsis of Speech – Manilla 2014

Sheikh Thafier Najjaar
President of the World Halal Council

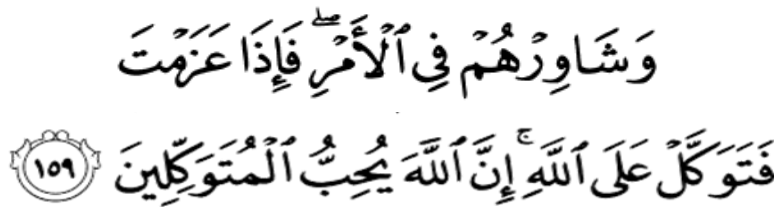

All Praise is due to **Allah**, Lord of the Universe; Peace and Blessings upon Nabee Muhammad (SAWS), His family, His friends and all those who follow Him.

With the evident increase of the global population comes the growing demand for consumables, specifically food; today, the general make up of food products is the culmination of ingredients from around the world. Most of the foods that we commonly eat today are the products and ingredients of globalization. It is here that the *World Halal Council*, in its vital relevance as a platform for global halal certifying bodies, embodies its role of not only servicing the halal industry but also serving and assisting mankind as commanded by **Allah SWT**:

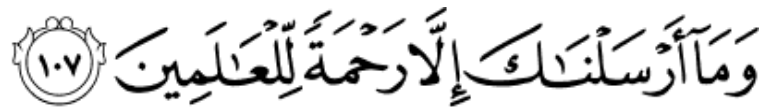

'The Believers, Male and Female, they assist one another.'

In addition, through uniformed cooperation within our Organization, the many great benefits and educational aspects of halal and its way of life can be promoted. One of the fundamental values of the halal way of life is developing mutual love, care and respect for one another through dialogue and consultation – in spite of the perfection of the intelligence of the Nabee Muhammad (SAWS) and alone being held by divine inspiration, Nabee Muhammad (SAWS) was commanded by Allah SWT to,

'... Consult them in the matter. And when you have decided, then rely upon Allah as verily Allah loves those who rely on Him.'

The WHC is not just here to serve the 2.08 billion Muslim global populations but also to serve the whole of Mankind as noted in the Noble Qur'an;

'And We have not sent you but except as a mercy to all Mankind.'
